FAST-TRACK DESIGN FOR A HEALTHIER FUTURE

New England is in the midst of an extraordinary period of investment into its transportation infrastructure. These projects bring an enormous amount of construction on our roads and all types of users. However, advancements in project delivery methods have allowed engineers to be more innovative in their designs, while still reducing the time it takes to go from concept to construction.

technical sessions

- 1 Current Practices Regarding the Flashing Yellow Arrow Permissive Indication
Michael Knodler, Jr., Ph.D.,
UMass-Amherst
- 2 Systematic Safety Improvements in Massachusetts
Recent Safety projects to correct deficiencies system-wide.
