

# Biking in Massachusetts: How and Why our Roads Matter

Transportation consulting professionals are invited to a presentation on biking in Massachusetts by MassDOT representatives. Presenters will discuss how to further our goal of providing transportation options and cover:

- Why People Bike
- MassDOT's Goals
- Overview of MassDOT's Separated Bike Lane Guide
- Different Types of Bicycle Facilities
- Construction and Maintenance
- Resources and Tools

## Who Should Attend

This discussion is intended for project designers, planners, and engineers of transportation consulting firms who design roads, bridges, and facilities where people bike.

September 24, 1-3pm,  
District 6, 1<sup>st</sup> Floor Conference Room, Boston, MA 02111

*Please note: The facility is accessible by walking, biking and/or taking the MBTA's subway, buses, and/or commuter rail. If people decide to drive, there are limited guest spots in the front parking lot at District 6. If those are taken, please proceed around the right of the building to the back loop and park there. Please do not park in any reserved or numbered spots. If necessary, please park at 10 Park Plaza and walk.*

## Presenters

Jackie DeWolfe, MassDOT Office of the Secretary, Director of Sustainable Mobility  
Michelle Danila, P.E., PTOE, MassDOT Highway Division, Complete Streets Engineer  
Andy Paul, P.E., MassDOT Highway Division, Highway Design Engineer
